REASSURE PATIENTS & THEIR FAMILIES WITH A TELEHEALTH SOLUTION

At WhiteBark, we understand the challenges Assisted Living Facilities are facing amid the pandemic and the uneasiness patients and their families are feeling. We designed a telehealth platform with you in mind.

Commitment & Care

Demonstrate commitment and care for your residents and their families by providing a WhiteBark Telehealth Platform. Reassure them that even with the current restrictions, you are able to connect them with each other and necessary physicians.

User-friendly Technology

WhiteBark Telehealth Platform is partnered with a global non-profit telehealth provider to bring you a reliable system with expert guidance and technical support. We sought out the most intuitive telehealth platform to ensure your program can be up and running as quickly as possible with minimal training.

Economical Fee Structure

Our team of professionals understands the financial challenges tied to healthcare. That's why our platform is the most cost-effective solution on the market.

We have worked to find one of the most user-friendly platforms for physicians and partners.

The WhiteBark Telehealth Platform provides numerous benefits with a click of a button. Residents and their family members can connect with a physician via the HIPAA-compliant software for routine or follow up appointments and more.

Physicians can easily switch between webcam and peripheral scopes, send secure messages, and store Protected Health Information (PHI).

Licensing and Equipment

Startup fees:

**\$500 per provider or
\$2500 for 5+ providers
*one time fee**

WhiteBark will assign each provider unique credentials for accessing the platform. The provider's profile can be customized and settings adjusted to fit your needs. Expert technical assistance and support included.

Secure Video Conferencing License:

**Paid annually
1-9 License(s): \$3,600
10+ Licenses: \$3,200**

Unlimited telehealth sessions with your patients via secure, HIPAA-compliant video conferencing. Complete wellness exams, follow up appointments, prescription refills, behavioral assessments, addiction support services, and more with ease. Review patient files and reports with a click of a button.

Equipment:

Equipment can be purchased through partnership with Global Partnership for Telehealth or providers may utilize existing smart tools.
