TELEHEALTH

A MONEY-SAVING APPROACH TO HEALTHCARE

At WhiteBark, we know your resources are often stretched to the maximum; and tending to the healthcare needs of inmates only adds to the challenge. That's why we are offering a different approach to healthcare delivery that will cut costs while still providing this crucial service.

Utilize telehealth to connect inmates and physicians without ever having to leave the facility. Services such as behavioral health, urgent care, specialist consultations and more are available.

User-friendly Technology

We sought out the most intuitive telehealth platform to ensure your program can be up and running as quickly as possible with minimal training.

Economical Fee Structure

Our team of professionals understands the financial challenges of your facility. Our platform is cost-effective so you can preserve your critical resources and staff.
